Sidefill likes to thank:

- Thomas Thessen (probably a lawyer by now)
- Ralfie, still going strong....Oscar-nomination in sight.....liverpot & Buglabber....
- Our wives & girlfriends for being so very, very patient!
- Tuck Bergmann for not changing horses with the jet-set cowboys at Næstved & creation de la Paris: cheasy hair!
- Rolf Joergensen, for being closely in touch with his timemanager, mobile phone, clean Underwear, for the love of wooden chairs & creation ala Roma: cheasy hair 2!
- Jesper Boysen, for not talkin' at the right moments & keepin' things together with sparkling remarks like: "Hanginmulething!!"
- Henrik Dankert, "no foodpackage for me..", fædback on stage, Fiat Tippo & nice hair!
- Friend of "On the Buss" Jensen, who kindly but with a strong look, took care of the driving, as the bassplayer (it's usually the bassplayer of a band) where rushed to further examinations at RAS, unmotivated 'clicks' on stage & nice hair 2!
- Keld "On the Buss" Jensen, for surviving that night!
- Skullerupholm for its exquisit surroundings & everybody at the residence, including Erik S. for naming the buss: Eriks Buss!
- Werner & John Deere, his seldom spoken question:"well, are you doing something?"
- Per Oesterlund for keepin' the Band alive with gigs..... and finaly but not least: Hermod!

1. Det handler om tryghed. Dansk økonomi er i dag bomstærk. Men vi kan ikke bare lukke øjnene for de internationale problemer, der hurtigt kan opstå. Den kommende tid vil for mit vedkommende være meget præget af debatten om euroen.

Min personlige holdning er klar. Jeg mener, at vi skal sige ja til, at Danmark går ind i et samarbejde med de andre europæiske lande om den fælles mønt. Det bør vi gøre for vores egen skyld. Men også i en fælles interesse med de andre lande i Europa og fordi Europa godt kan sætte et bedre og mere menneskeligt præg på den internationale økonomiske udvikling.

Der er tre gode grunde til at sige ja til euroen:

2. Det handler om beskæftigelse og danske arbejdspladser. I dag mangler Danmarks stemme, når de 11 euro-lande drøfter arbejdsløshed og beskæftigelsesprogrammer. Der kunne Danmark gøre en forskel.

3. Det handler om indflydelse. Vi skal naturligvis være med der, hvor der træffes beslutninger, som under alle omstændigheder får betydning for danskerne.

At skifte penge fra kroner til euro er en stor beslutning. Det er ikke blot en beslutning, der handler om penge, arbejdspladser og økonomi. Det handler også om sikkerhed og politik.

Vi skal ikke stå udenfor og blot være henvist til at tilpasse os det, de andre har besluttet. Uanset om man er tillidsmand på en arbejdsplads eller man er statsminister, tror jeg grundlæggende på, at vi skal være med til at præge tingene der, hvor der træffes beslutninger, som direkte påvirker vores hverdag og vores fremtid.

Jeg anbefaler et Ja til den fælles valuta den 28. september - fordi det er bedst for Danmark.
